

Ovation

Specification Guide

Ovation

The Ovation Height-Adjustable Workstation System is the latest table system from Thinking Works.

It's unique oval profile and design elements provide countless possibilities and flexibility to suit any workplace environment.

Ovation

Electric 6 – 10

Fixed Height 11-15

Accessories 16-28

Safety Features 29

A technical line drawing of a desk leg assembly. It shows a vertical cylindrical post connected to a horizontal base plate. A horizontal bar is attached to the top of the post, and another horizontal bar is attached to the base plate. A small rectangular component, possibly a connector or a sensor, is mounted on the side of the post. The drawing is composed of clean, black lines on a white background.

Ovation

Ovation Finishes

1. Frame & Cable Tray Powdercoat

All steel frame is available in Noir and Blanc powdercoat as a standard finish

In addition the steel frame is available in our current seasonal colour powdercoat.

3. Acoustic Screen

Our Ovation screen is available in Dark Grey and Light Grey acoustic panel. Screen mounts are finished in standard or seasonal colour powdercoat.

4. Framed Acoustic Screen

Our unique Ovation framed screen is available in Dark Grey, Light Grey or customer specified acoustic panel or upholstered with customer specified fabric. The aluminium frame is finished in standard or seasonal colour powdercoat.

Colours are representative only, please check with your Thinking Works consultant to view samples of any specific colour.

Ovation - Electric Features

Dimensions

Minimum Height	590mm
Maximum Height	1210mm

(Dimensions to underside of worktop)

Weight Capacity 2 leg	100kg
Weight Capacity 3 Leg	150kg

(Evenly Distributed Load including worktop)

(Maximum Point Load 30kg)

Functions

- 3 programmable height settings with Electronic Display
- Built-in Impact Stop Function
- 3 Stage lifting Column with Spindle Drive
- Travel Speed = 35mm/Second
- Noise <50dB
- Standby power consumption 0.5W

Warranty

Electric Frame	10yrs
Electrical Components	5yrs

Country of Origin

Australia

For additional Technical Information, please check with your local Thinking Works consultant.

Ovation - Electric Safety Features

Impact Stop

- Impact Stop system minimises damage to Electric Height Adjustable frames from contact with objects obstructing the path of movement
- Impact Stop initiates while frame is lowering or raising, when 1 second of resistance from an obstruction is detected.
- When resistance is detected, desk will automatically stop then move 50mm in opposite direction in order to clear obstruction.

Specification

If you would like a sample set of any of our finishes, please call us on 61 (0)2 9726 7177 or e-mail at sales@thinkingw.com.

Due to our policy of continuous product development, specifications and finishes may change without prior notice.

Sustainability Policy

We realise the importance of responsible business practices and have in place numerous product and company sustainability certifications. We would encourage you to download our annual Sustainability Report from the Thinking Works website to get a full overview of our sustainability program.
