

Blade

Furniture for the Curious

Blade

Endless possibilities.

The Blade table system was designed to provide unlimited table configurations using a flexible range of standard components.

Using one leg profile, one hub (either fixed or flexible) and one rail, the possibilities are never ending. Blade has evolved to include the “Aero” leg for folding tables and small fixed utility tables. The folding tables use the high quality German designed and manufactured folding system as used in other ThinkingWorks folding tables.

Blade

The Blade table system was designed to provide unlimited table configurations using a flexible range of standard components. Using one leg profile, one hub (either fixed or flexible) and one rail, the possibilities are never ending.

Sustainability Policy

We realise the importance of responsible business practices and have in place numerous product and company sustainability certifications. We would encourage you to download our annual Sustainability Report from the ThinkingWorks website to get a full overview of our sustainability program.
