

Butterfly

Specification Guide

Butterfly

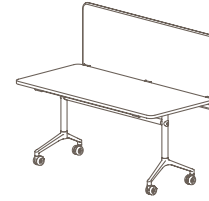

A modular, agile screen designed for use with our folding tables.

Butterfly offers privacy solutions for flexible desk arrangements, available in both fabric upholstered and acoustic PET options. With its advanced folding mechanism and retention system, this innovative product enables discreet screen storage without compromising functionality in dynamic workspaces.

Butterfly

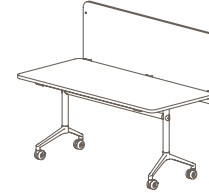

Upholstered Screen

5 – 8

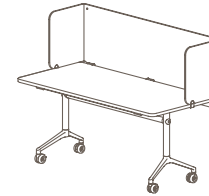

24mm PET Screen

9 - 11

12mm PET Winged Screen

12 - 14

A minimalist line drawing of a whiteboard on a stand. The whiteboard is tilted and has the word "Butterfly" written on it in a bold, sans-serif font. The stand is composed of a vertical pole and a horizontal arm that supports the whiteboard. The drawing is done in a simple, clean style with thin lines.

Butterfly

Butterfly Upholstered Screen Features

1. Upholstered Screen Panel

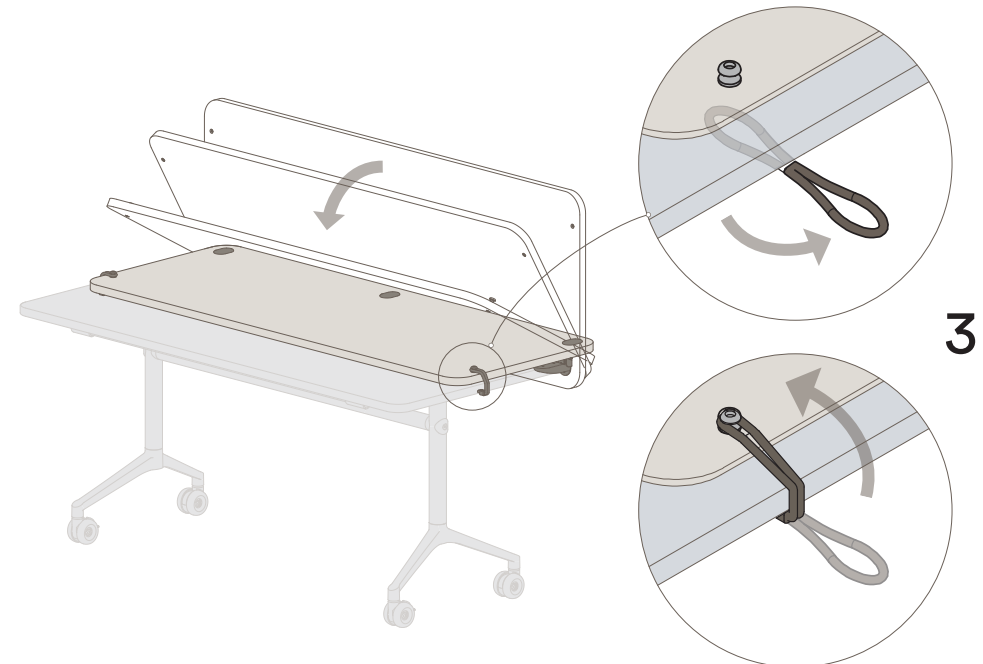

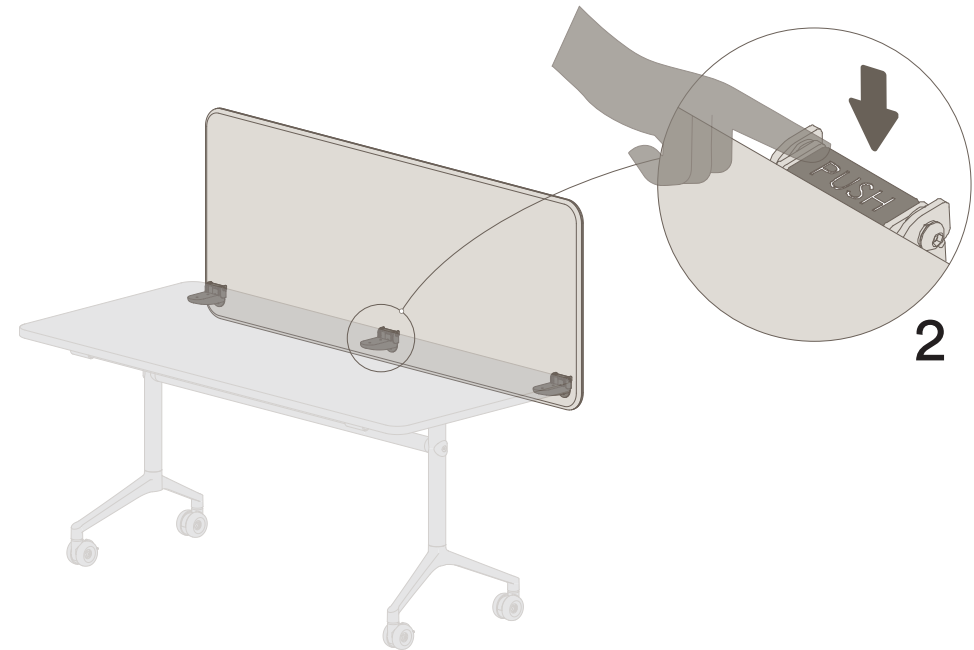

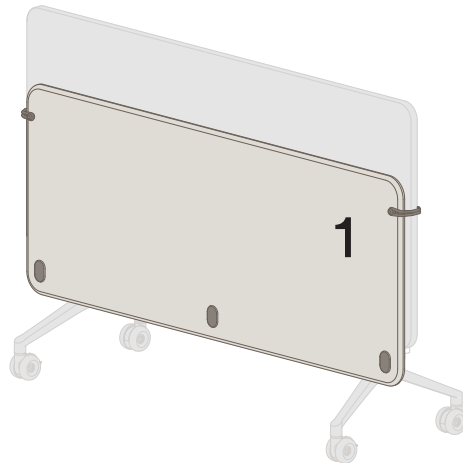

The Butterfly screen is available with our patented fabric upholstered panel. Available in a wide range of fabrics

2. Folding Screen Mounts

The Butterfly screen system features our innovative self-locking mechanism that ensures the screen remains securely upright, eliminating the risk of the screen accidentally falling forward. Unlocking is simple - just press the push button located at the back of the worktop edge, and effortlessly collapse the Butterfly screen flat against the worktop

3. Stretch Loops

The Butterfly screen is designed with user-friendly stretch loops that make securing it against the folding table worktop a breeze. The stretch loops are conveniently hidden underneath the worktop while the screen is in use. When it's time to fold the screen, simply rotate the stretch loops around and fasten them securely by pulling them over the toggles attached to the Butterfly screen.

Colours are representative only, please check with your Thinking Works consultant to view samples of any specific colour.

Butterfly

Upholstered Screen Finishes

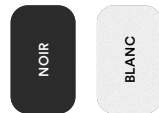

1. Folding Screen Mounts

Folding worktop Mounts are available in Noir powdercoat with red release button

2. Screen Clamping Plate

Screen rear clamping plates are available in Noir and Blanc powdercoat to match table frame

3. Stretch Loop

Stretch loop and toggle are available in Black elastic and matching plastic

4. Upholstered Screen

a. Customer Supplied Fabric

Due to the technical requirements most customer supplied fabrics require PU foam.

b. Thinking Works Recommended Fabric

To maintain the high level of sustainability, Thinking works recommends the following fabric ranges:

i. Upholstered - Woven Image Global

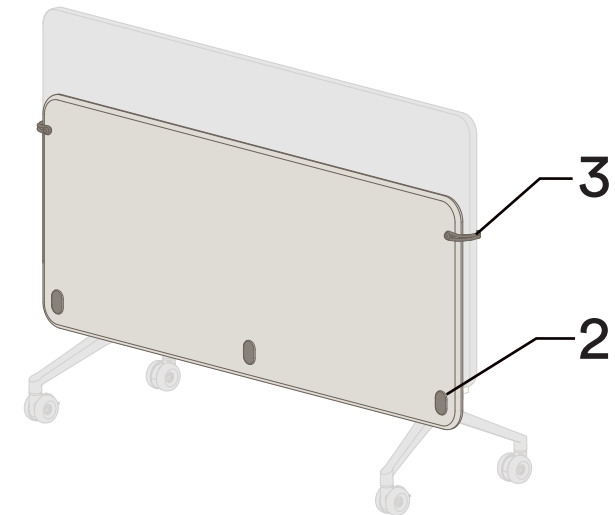

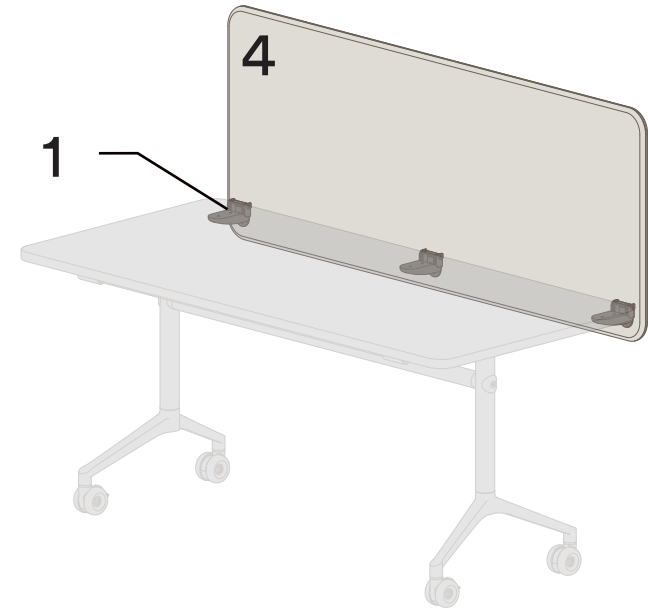

Woven Image's GLOBAL fabric range can be upholstered without the need of PU foam backing whilst using 97% less adhesives than similar traditionally made screens. As a result, Butterfly screens can be made to a shorter production time. GLOBAL is available in range of 25 colours and is low VOC certified.

*Two tone upholstery is possible

**Lead times may vary depending on the availability of fabrics.

Colours are representative only, please check with your Thinking Works consultant to view samples of any specific colour.

Upholstered Screen Finishes

4. Upholstered Screen

ii. Upholstered - Warwick Foster

Warwick's Foster fabric range is Oeko-Tex Standard 100 certified and can be upholstered without the use of PU foam backing whilst keeping the use of adhesives to a minimum. As a result, Butterfly screens upholstered with FOSTER fabric are not only sustainable but can also be made to a shorter production time. FOSTER is available in range of 12 colours and stocked in Australia.

iii. Upholstered - Warwick Brooklyn

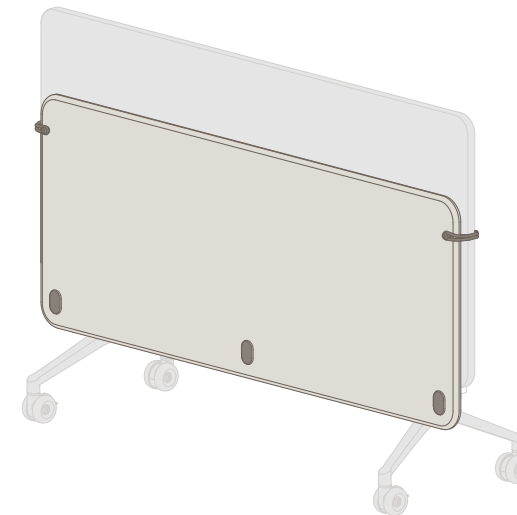

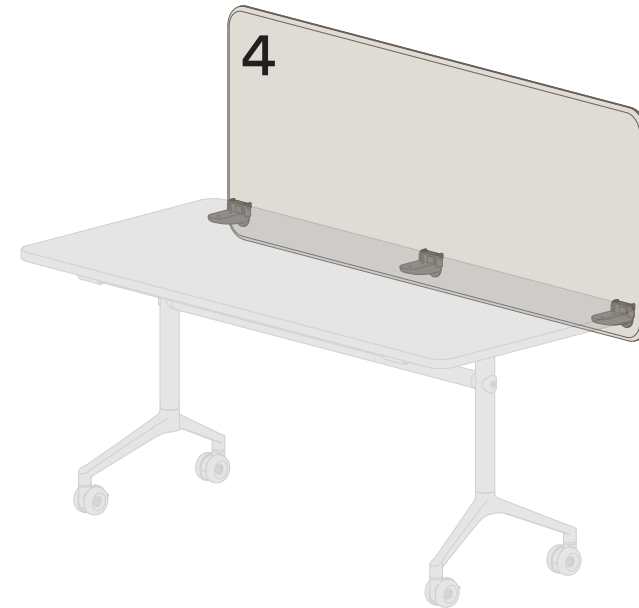

Warwick's Brooklyn fabric range is also Oeko-Tex certified; fire rated in accordance with AS1530.3; and has Halo easy-clean benefits. It is another fabric range that can be upholstered without the use of PU foam backing whilst keeping the use of adhesives to a minimum. This ensures the Lovoc screen is as sustainable as possible and speeds up the manufacturing process. Brooklyn is available in a range of 14 colours and stocked in Australia.

Lovoc Screens are designed to be disassembled at the end of the product life and split up in the recycling streams of each material. This can only be achieved if the fabric is not foam backed. Please take this into consideration when specifying the fabric.

*Two tone upholstery is possible

**Lead times may vary depending on the availability of the fabric

Butterfly

12mm Winged PET Screen Features

1. 12mm PET Screen Panel

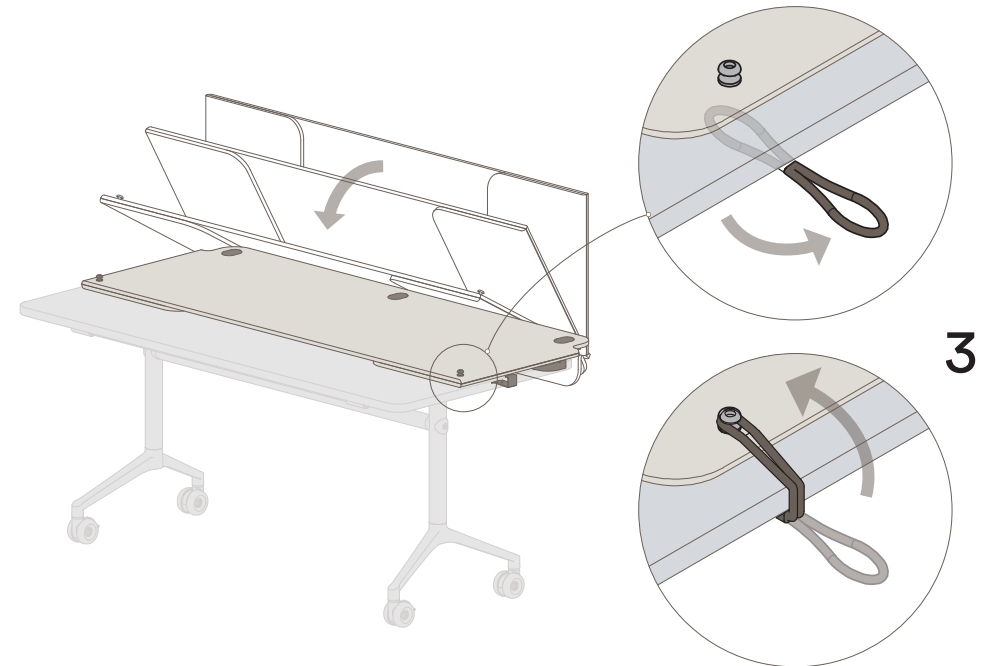

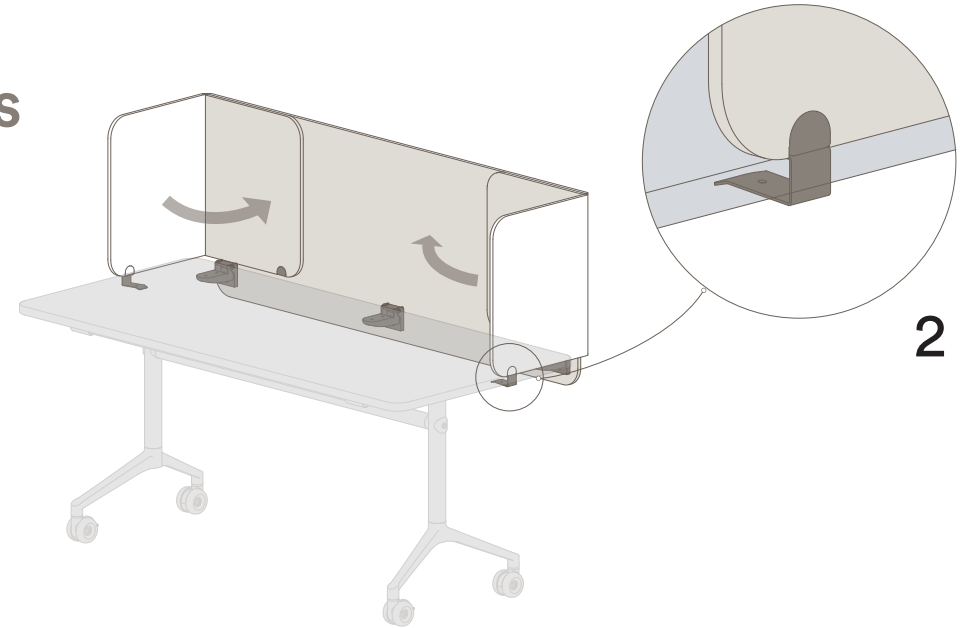

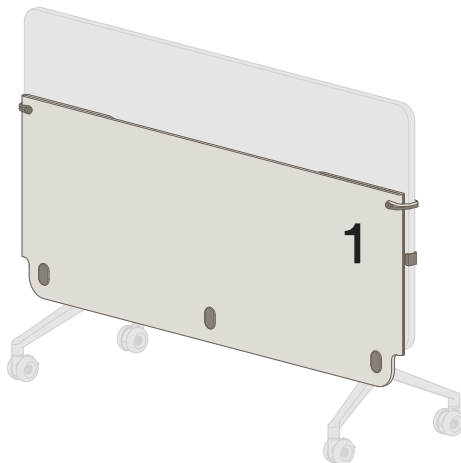

The Butterfly Winged screen panel is available in dark grey, light grey or customer specified PET 12mm PET acoustic panel.

2. Return Wings

The Butterfly winged screen system incorporates innovative folding side screen wings to enhance user privacy. These wings remain open during use and can be conveniently folded inwards for easy storage. The combination of magnetic screen fixings and steel worktop clips ensures perfect alignment of the wings along the edges of the worktop.

3. Stretch Loops

The Butterfly screen is designed with user-friendly stretch loops that make securing it against the folding table worktop a breeze. The stretch loops are conveniently hidden underneath the worktop while the screen is in use. When it's time to fold the screen, simply rotate the stretch loops around and fasten them securely by pulling them over the toggles attached to the Butterfly screen.
