

# Seamless

# Seamless

## Power + Data Modules.

Seamless Power + Data modules represent the convergence of technology with superior furniture without aesthetic compromise. The lids are an integrated component of the worktop with the structural housing attaching to the underside of the worktop to form one complete product.

**01 Lipped edge**

Unlike most powerboxes with a lipped edge sitting over the cut-out in the table top, the Seamless lids are an integrated component of the worktop providing a “seamless” aesthetic.

**02 Style**

There are 4 x styles of powerbox, each with different capacity for power points and different dimensions for various table sizes and requirements

**03 Cable System**

Structural housing attaches to the underside of the worktop to form one complete product. GPOs supplied only. Cabling and data outlets are available separately.

## Seamless

Power + Data Modules.

Seamless Power + Data modules represent the convergence of technology with superior furniture without aesthetic compromise. The lids are an integrated component of the worktop with the structural housing attaching to the underside of the worktop to form one complete product.

## Sustainability Policy

We realise the importance of responsible business practices and have in place numerous product and company sustainability certifications. We would encourage you to download our annual Sustainability Report from the ThinkingWorks website to get a full overview of our sustainability program.
