

Thinking Quietly

Furniture for the Curious

Thinking Quietly

Escape the noise;
embrace the quiet.

From smart workstations
and workbays to the iconic
“cone of silence”, Thinking
Quietly is a soothing
antidote to office din.

Peace at last. Time to get
thinking...

Workstations

**01 Umbrella**

The Umbrella is designed to capture sound as it travels up, following the natural direction that sound travels. The Thinking Quietly Acoustic Panel is formed using “kerf” cutting patterns which allows the material to bend to the required shape.

02 Integrated LED task light

The leading edge of the Umbrella houses LED

lighting to provide an adequate light source for each user, while the wiring for the LED lights is concealed within the timber uprights. The Umbrella Screen fits easily into the timber posts of the Umbrella to provide additional acoustic benefit and privacy between users.

03 Screen options

Thinking Quietly workstations are available

with or without canopy, various screen options, a range of accessories together with various stain and finish options.

04 Overhead Acoustic Canopy

Following the natural direction in which sound travels, the distinctive Thinking Quietly canopy is designed to capture sound from above. Additionally, the Canopy can house LED lighting to provide a light

source for each user with the wiring concealed within the timber uprights.

01 Acoustic Panel Cable Management Gutter
Thinking Quietly workstation uses die cast aluminium leg adaptors connecting to steel rails which provide ample stability and allows a robust platform to fit the workstation fittings to, while the Cable Tray provides a high finish detail to the workstation. The legs provide a fascia that covers the ends of the cable tray, which can be folded down by releasing toggle latches allowing easy access for electricians and data technicians.

02 Accessories
A diverse range of accessories using the Thinking Quietly acoustic panel are available to complement the range and further enhance the acoustic properties and performance. The practicality of the panel is extended to a Thinking Quietly Desk Pad, Brief Screen, Canopy and Cable Tray available in a selection of PET finishes.

03 Retro briefcase/ interpersonal screen
Lastly, the Retro Brief Screen is designed as an

inter-personal screen that can house personal items and can be carried with the user to a meeting or the next place they want to work. It can be wired using a Neutrik plug and features 1 x socket and 2 x USB outlets inside the screen, which allows laptops or tablets to be stored inside along with other personal items.

04 Infill Block

05 Acoustic Panel desk Pads
The Desk Pad is an optional

accessory for worktops. Utilising the PET material in light grey, dark grey or oatmeal, the Desk Pad is available with or without power and is ideal for providing storage for small tablet devices, pens and other desk top requirements.

Thinking Quietly

Escape the noise; embrace the quiet.

Thinking Quietly turns the volume down on workplace sound. In a noisy world, Thinking Quietly's range of acoustic furniture offers peaceful respite. Consulting acoustic engineers as part of the design process, advanced acoustic materials were chosen to create a balanced sound environment, while a stylish retro design fits perfectly in the modern office.

Sustainability Policy

We realise the importance of responsible business practices and have in place numerous product and company sustainability certifications. We would encourage you to download our annual Sustainability Report from the ThinkingWorks website to get a full overview of our sustainability program.
