

Easypeasy

Specification Guide

Easypeasy was born from the idea to create a seating and table system that provides an easy way to offer modularity, colour, playfulness, and sustainability.

A chair, stool and table range that offers an easy way to incorporate hundreds of colour combinations with fast lead-times. A chair that offers an easy way to scale up sustainability credentials. A stool that offers two heights and an easy way to add or remove the backrest. A table that is transported flat and is easy and fast to assemble on site.

Easypeasy celebrates the power of simple design. Behind its friendly & playful name lies a clear idea — making things easy for designers, for installers, and for users to have some fun with their furniture.

Its modular system of chairs, stools and tables, offers 15 frame colours and 25 seat and backrest colours. And because it's so easy to assemble or disassemble, to change & swap components, it's easy to replace parts, reuse, or recycle.

Easypeasy proves simplicity can be functional, sustainable, and can offer designers hundreds of colour combinations to bring fun to their projects.

It's Easypeasy.

Chair Finishes

Easypeasy features a robust tubular steel frame paired with a seat and backrest available in either FSC¹ certified timber or rHDPE² sourced from DEFY. Both finish options are designed to complement or contrast the steel framework and are available in a selection of seasonal finishes.

1. Frame Finishes

Featuring tubular steel frame finished in our seasonal powder-coated colours.

2. Timber Seat + Backrest Finishes

FSC Certified timber backrest and seat available in Ash Veneered Plywood, Walnut Stain, or painted in seasonal finishes with exposed timber grain. Finishes can be selected to complement or contrast the steel frame.

2. rHDPE Seat + Backrest Finishes

DEFY rHDPE backrest and seat is made from 95 - 100% post-consumer and post-industrial recycled plastic waste, and available in eight custom colour options.

¹ FSC = Forest Stewardship Council
² rHDPE = recycled high-density polyethylene

Colours are representative only, please check with your Thinking Works Consultant to view samples of any specific colour. Please note that pricing will vary based on your selected finish.
