

Easypeasy

Furniture for the Curious

Easypeasy was born from the idea to create a seating and table system that provides an easy way to offer modularity, colour, playfulness, and sustainability.

A chair, stool and table range that offers an easy way to incorporate hundreds of colour combinations with fast lead-times. A chair that offers an easy way to scale up sustainability credentials. A stool that offers two heights and an easy way to add or remove the backrest. A table that is transported flat and is easy and fast to assemble on site.

Easypeasy celebrates the power of simple design. Behind its friendly & playful name lies a clear idea — making things easy for designers, for installers, and for users to have some fun with their furniture.

Its modular system of tables, chairs and stools, offers 15 frame colours and 25 seat and back colours. And because it's so easy to assemble or disassemble, it's easy to change & swap components, to replace parts, reuse, or recycle.

Easypeasy proves simplicity can be functional, sustainable, and can offer designers hundreds of colour combinations to bring fun to their projects.

It's Easypeasy.

Chairs

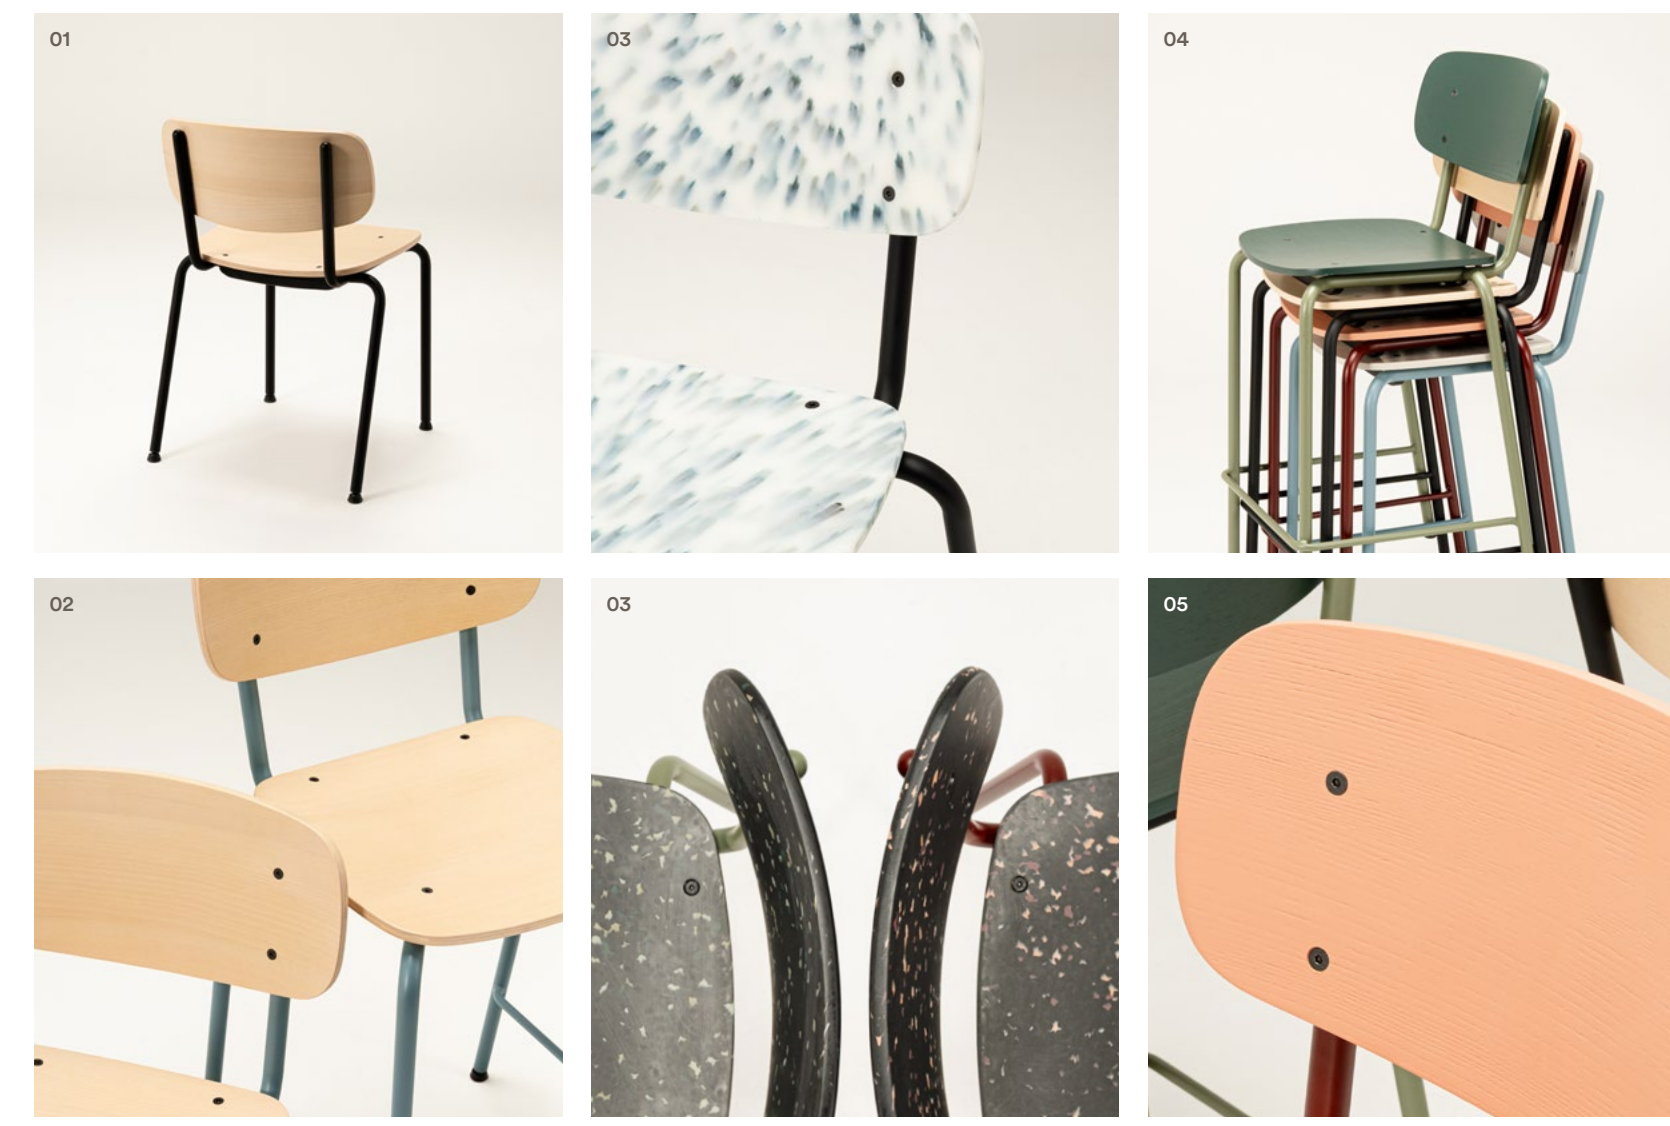

- 01 **Easypeasy Chair**
A tubular steel chair frame with a 12mm moulded Ash veneer plywood seat and backrest.
- 02 **Plywood Seat + Backrest**
Available in Ash - Standard / Walnut Stain / Seasonal solid colour with timber grain.
- 03 **DEFY rHDPE**
Recycled high-density polyethylene seat + backrest. Made from 95 - 100% post-consumer and post-industrial waste. Available in 8 colours.
- 04 **Stackable Design**
Easypeasy chairs and stools are stackable allowing for simple storage and space efficiency.
- 05 **Custom Colour Combinations**
Combine seasonal seat and backrest colours with frame options to create harmony or bold contrast.

All painted timber seat + backrests are sandblasted in house prior to painting to reveal the timber grain.

Stools

Thinking Circularity — DEFY rHDPE

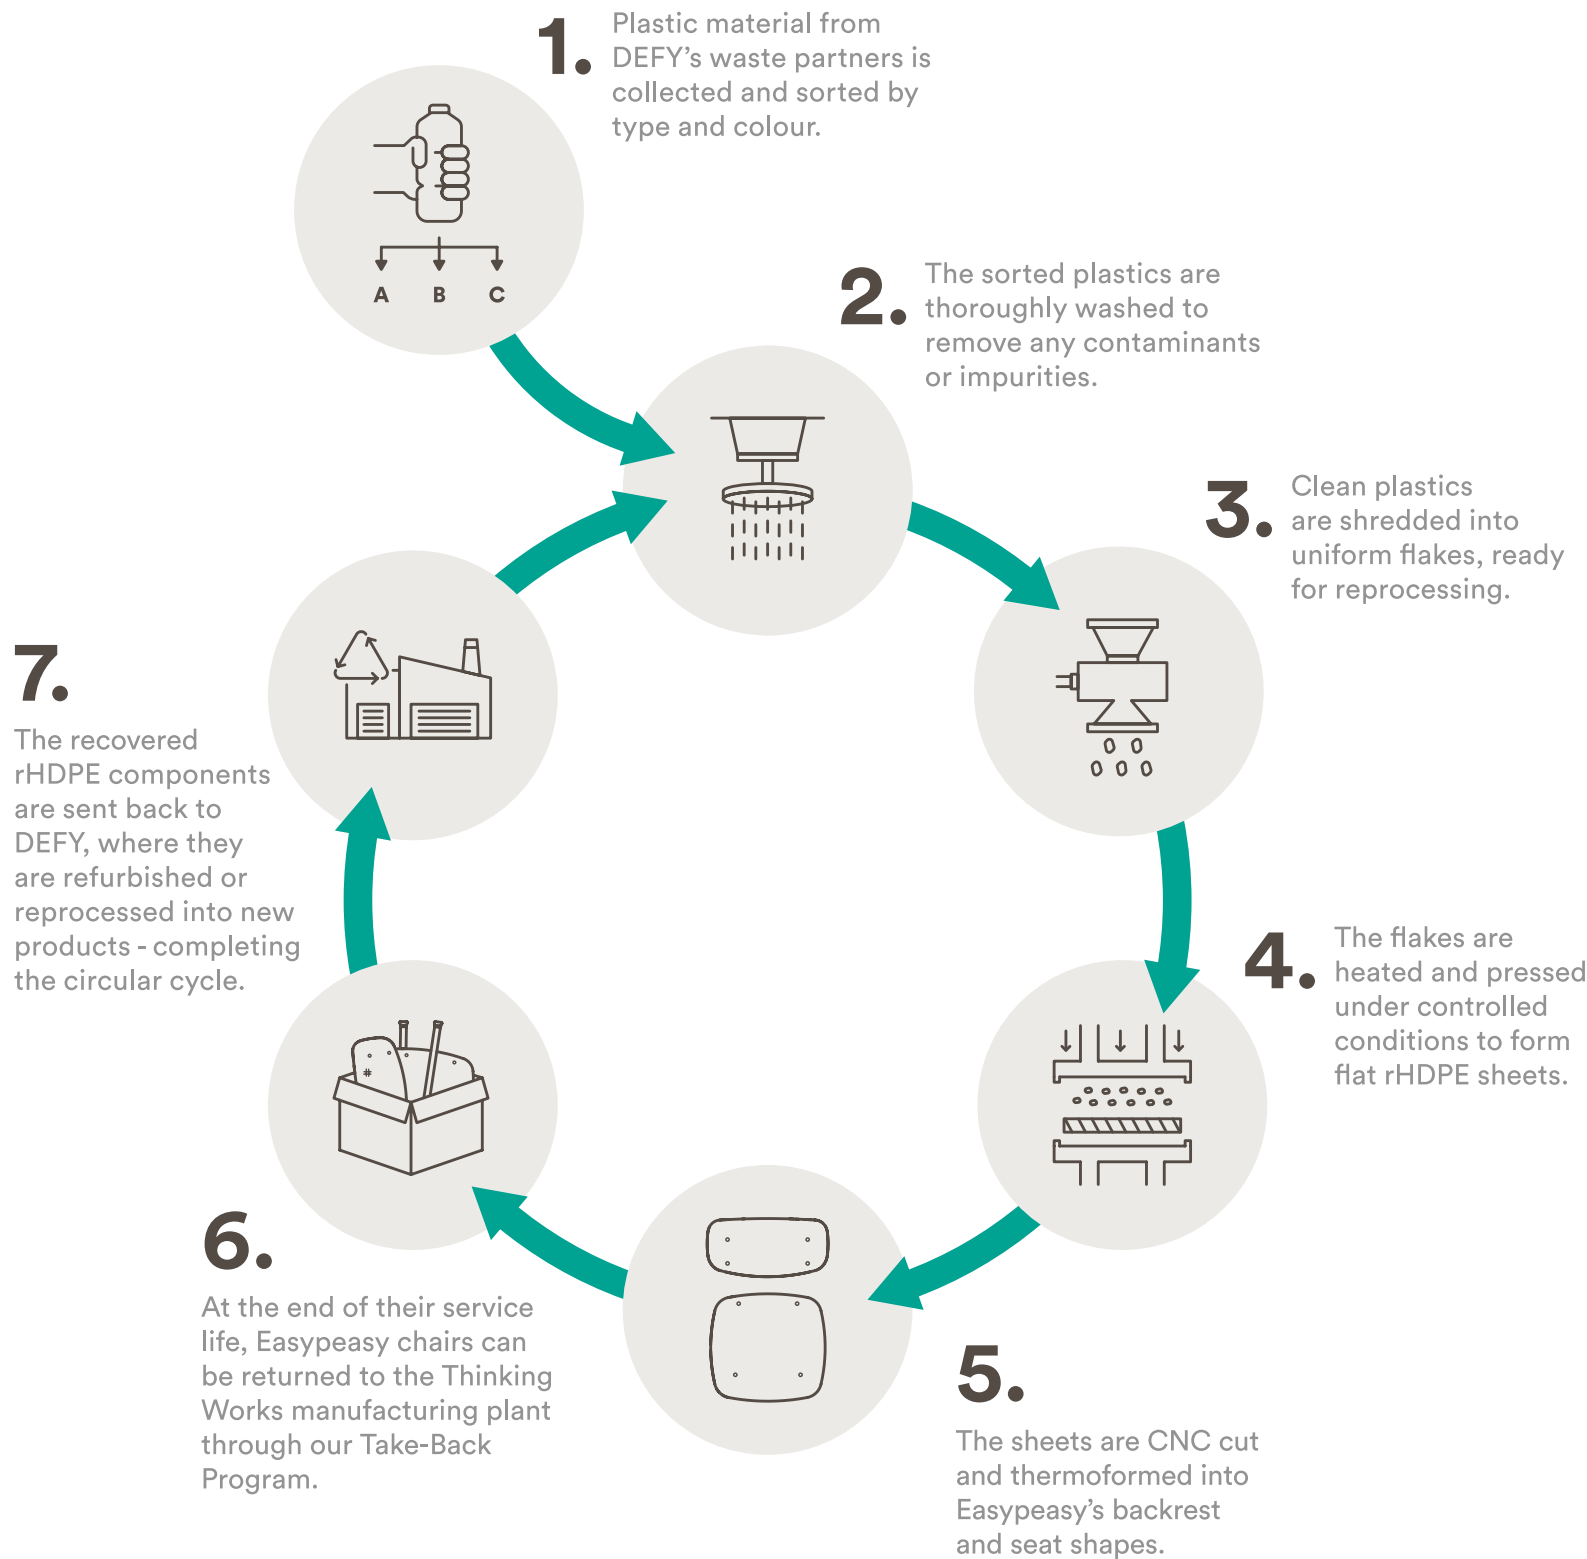

**In Australia,
around 30,000 tonnes
of commercial furniture
waste is generated
each year, with an
estimated 95% ending
up in landfill.¹**

**Our rHDPE helps
change that.**

¹ Australian Government Department of Climate Change, Energy, the Environment and Water (DCCEEW), Designing out waste for commercial furniture and furnishings – Furniture 360, Australian Government, Canberra, 2023.

Thinking Circularity — DEFY rHDPE

Each year, around 30,000 tonnes of commercial furniture waste is generated in Australia, with an estimated 95% ending up in landfill¹. In partnership with DEFY, we're working to change that. Our rHDPE backrest and seat are made from 95–100% post-consumer and post-industrial plastic waste, giving discarded plastics a new life.

More than just recycled, our rHDPE is refinishable, reusable, and fully recyclable. At the end of its service life, each component can be refurbished or reprocessed into new products, extending its lifespan and keeping valuable resources in circulation.

Through our partnership with DEFY, we're sourcing locally, reducing transport emissions, supporting Australian suppliers, and ensuring our products can be easily returned for refurbishment or recycling through the same supply network - further reducing environmental impact.

Tables

01 Easypeasy's playful range suits a variety of settings. Manufactured on a simple tubular steel frame for a clean, modern look.

02 4 Star Table
The sleek 4 star table base provides a modern style with ample legroom.

03 2 Leg Table
The tubular steel frame shown in black, can be powdercoated in 15 seasonal colours.

04 Adjustable Glides
The glides offer 10mm of adjustment to level the table on uneven floors.

05 Straight Centre Leg
A straight central leg adds stability and support for larger extended Easypeasy tables.
